

DQ Technologies Order Delivery Tracking Vehicle Maintenance Records

ADVANCED FLEET MANAGEMENT AND VEHICLE MAINTENANCE RECORDS

VMR for ODT is a low cost and simple to use fleet maintenance management solution designed to track the rolling expense of your delivery fleet. VMR provides users the ability to define preventative maintenance schedules, track inside and outside repair costs, and manage expense related data to an individual vehicle level. Plus, ODT's open database structure provides users the flexibility necessary to develop customizable reporting specific to your business.

KEY FEATURES AND BENEFITS

- Complete Vehicle Cost Accounting
