

OUT OF REACH

DOESN'T HAVE TO MEAN

OUT OF TOUCH

ODT MOBILE app keeps dispatch and drivers on the same page

ODT MOBILE is an interactive app for iOS™ and Android™ mobile devices that provides easy-to-use dynamic communications between dispatch and drivers while out on the road.

Integrating with our ODT tracking suite, ODT MOBILE delivers an effective point-of-delivery solution for capturing order status updates, proof of delivery, signatures, pictures, order notes, delivery issues and more.

Combined with GPS tracking and turn-by-turn navigation, ODT MOBILE enhances customer service and communications by providing realtime visibility of order scheduling and delivery status information.

- Delivery Status / Point Of Delivery
- Automated Data Updates
- Order-Specific Notes / Delivery Data
- Optional Turn-By-Turn Navigation
- Signature Capture
- Picture Capture
- Pre- & Post-Trip Inspection
- Hours of Services & Electronic Driver Logs
- Incident Reporting
