

DQT ODTVIEW EQUIPMENT SETUP/SYNC

Subject: AM Asset Setup

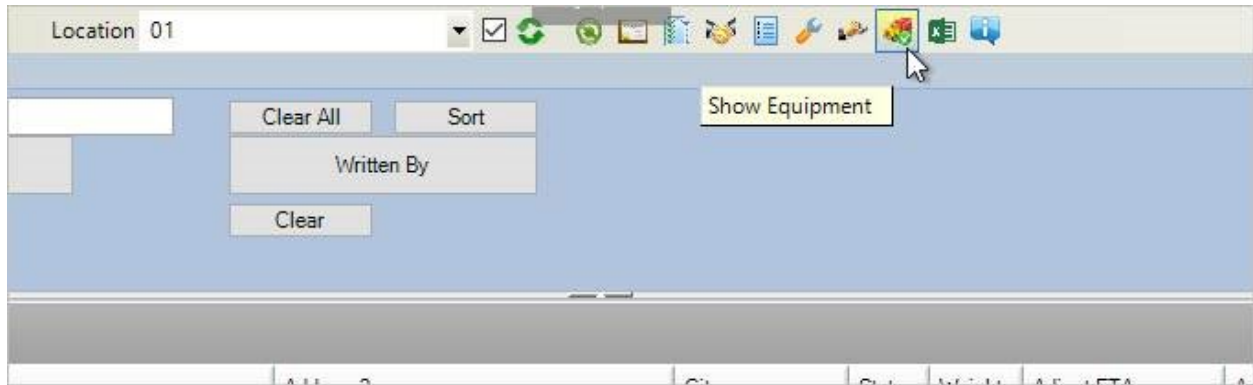

Created: 12/18/2020

Updated: 6/7/2022

Version: 1.1

Asset Setup

- Log into ODTview
- Select show equipment icon that is the upper right list of icons after the location drop down

- Click on the Add New option and choose to Add New AM Equipment and then fill in all the fields highlighted on the AM side. (**If you do not subscribe to DQTech's Asset Management services, then choose the Add New to ODT option and ignore any references to AM.**)

- Then click on the Save option in the upper left of the details.
- Select the new truck from the Equipment drop down list from the AM side of that section, click the blue, left pointing arrow. That will populate all the already set AM information for the truck to the ODT side and then Save.
